BULLETIN NO. 12-08

August 2012

## SPECIAL EDITION

### NATURAL GAS FUEL TYPE

Modifications are being made to the computer system to accommodate an additional fuel type selection effective August 5, 2012. Modifications will now allow for the selection of natural gas along with diesel, electric, propane, hybrid, gas and other. The following indicators are to be placed in the fuel type field:

- Gas - use "G"
- Electric - use "E"
- Diesel - use "D"
- Hybrid - use "H"
- Propane - use "P"
- Natural Gas - use "N"
- Other - use "O"

Form MV-1 is being revised to include "Natural Gas" as a fuel type. Older editions of Form MV-1 will remain valid. Agents who are using an older edition that does not list Natural Gas as a fuel type will need to check the "other" box and write in Natural Gas.
