BULLETIN NO. 16-26

December 2016

SPECIAL EDITION

PennDOT website Online Registration Renewal Change – Customers Print Permanent Registration Credential

As result of Act 89, providing for the elimination of registration stickers, PennDOT was able to continue its efforts to modernize our processes. One such modernization is the new enhancement to our online registration renewal process where a customer will print his or her own registration credential.

Effective December 31, 2016, customers will still have all currently available service channels to renew their registration; however, they will also be able to enjoy the convenience of renewing their registration online from home or a mobile device, printing and signing their permanent registration credential. With this enhancement to our online registration process, customers will no longer print a temporary registration credential nor will they need to wait for the delivery of their permanent credentials to be mailed to them from PennDOT. Effective December 31, 2016, PennDOT will no longer mail a registration card for registrations that were renewed online through our website.
