Medical Reporting and PennDOT Review Process

Initial Report is submitted to PennDOT

PennDOT reviews the report within 15 days. Based on the information, PennDOT may take one of the following 3 actions:

1. After review, PennDOT could deem the driver medically competent to drive, and no action will be taken.

2. After review, PennDOT may require more information to determine medical competency. The driver is sent the necessary form(s). The driver has 45 days to comply with PennDOT’s request.

3. After review, PennDOT may deem the driver medically incompetent to drive. A notice is sent to the driver indicating a recall of their driving privilege in 7 days from the mail date.
