BULLETIN NO. 14-19

December 2014

SPECIAL EDITION

Dual Persons with Disability, Disabled Veteran or Severely Disabled Veteran Registration Plates

Title 67, Chapter 47 was revised to allow individuals to apply for and receive two Persons with Disability, Disabled Veteran or Severely Disabled Veteran registration plates; one for the rear of the currently registered vehicle and one for a carrier which is attached to the rear of the vehicle to transport a wheelchair or personal mobility assistive device. These dual registration plates will display the same registration configuration.

The owner must affix the one registration plate on the rear of the vehicle and the second, registration plate will be mounted on the rear of the carrier that is being used to haul a wheelchair or personal mobility assistive device. If the carrier is moved to a different vehicle, the owner must remove the registration plate from the carrier as the registration plate is only valid when the carrier is mounted on the vehicle with the matching registration plate configuration and is not a valid registration plate for any other vehicle.

The owner may apply for the dual registration plates by completing Form MV-145, "Application for Person with Disability or Hearing Impaired Registration Plate or a Person with Disability Motorcycle Decal," or Form MV-145V, "Application for Disabled Veteran, Severely Disabled Veteran Registration Plate or Severely Disabled Veteran Motorcycle Decal," and submitting the application and applicable fee to PennDOT for processing.

Online agents are not permitted to process requests for dual Persons with Disability, Disabled Veteran or Severely Disabled Veteran registration plates and must forward the application and fees to PennDOT for processing.
