BULLETIN NO. 17-25

October 2017

SPECIAL EDITION

Wild Resource Conservation Fund Registration Plate

The Wild Resource Conservation Fund registration plate is the third full canvas color registration plate to be redesigned to reflect the “Family of Plates” color scheme of blue, white and yellow with the words “Conserve Wild Resources” printed at the bottom of the registration plate. A picture of a river otter appears in an approximate 3” x 3” canvas area on the left side of the registration plate using graphic printing that offers color and intricate detail.

The tag type for the redesigned Wild Resource Conservation Fund registration plate is “1Y” and will be placed in your .centric inventory beginning October 10, 2017. Please note, the full colored canvas registration plate, tag type “S3,” will continue to be available for issue by PennDOT Central Office only, until stock is depleted. Should an applicant wish to apply for the full colored canvas registration plate, the applicant must write “OLD STYLE” on the top portion of their application and mail to the address printed on the application. As a reminder, the full colored canvas registration plate cannot be personalized.

The full color canvas registration plate continues to be a valid registration plate. Vehicle owners who currently have the full colored canvas registration plate and wish to obtain the newly designed registration plate may request the new registration plate by completing the revised Form MV-911 and submitting it with a fee of \$36. The revised Form MV-911 is available on our website at www.dmv.pa.gov.
